BLACK RHINO

PAST AND PRESENT POPULATION SPREAD

Speaker's Notes

Throughout the 1900s, there were an estimated 850,000 black rhino in Africa! By 1995, it had dropped to 2,410 black rhinos in Africa. Because of the dire situation, efforts were put in place to protect the species and the numbers grew to almost 5000 black rhino in 2015.

For more information, see <http://www.iucnredlist.org/details/6557/0>.
