

**Small Animals & Biodiversity Rely on Rhinos  
to Create Favourable Homes for Them**

**Rhinos Maintain African Grasslands on which Many Animals Depend**

**Rhinos Create 'Sinks' That Absorb Carbon  
and Are Thus Important for the Sustainability of the Planet**

**Rhinos Keep Shrubs and Bushes Small, Reducing Fuel Load  
& Thus Reducing Damaging Wildfires**

**Communities Survive Off Rhinos Too  
By Selling Sightings (Tours) Of This Iconic Species,  
Or Crafts And Curios That Represent Them**
